The USI Faculty of Biomedical Sciences, through its affiliated institutes (IRB, IOR) and partner institutes (NSI EOC, Cardio-centro Ticino), offers study programmes for doctoral students in their respective disciplines in immunology, oncology, neurology, cardiology, and drug sciences.

On September 20, a selection of young doctoral students currently attending this programme will present themselves to the public to illustrate their research work at the first PhD Biomed Day, which will be held at the IRB in Bellinzona with the following programme.

Programme

13.30–13.40	Welcome Prof. Boas Erez, Rector of the Università della Svizzera italiana
13.40–14.00	The USI Biomed PhD programme Prof. Alain Kaelin
14.00–15.15	Progress report presentations PhD students
15.15–15.30	Coffee break
15.30–16.30	Key note lecture: “Exploring the human immune system in health and disease” Prof. Federica Sallusto
16.30–17.30	Apero
